 —Mrs. Kate Sheetz, of Hinton, Iowa, who has been visiting relatives in our city for two weeks, returned home last Thursday. She was highly pleased with our country and thinks it a most delightful place to live.
 —On Sunday of last week, Leigh Irvine was seen upon the streets of Rock Port. He remained in the city only a few hours, and upon inquiry it was learned that Leigh had not only left the town, but that one of Rock Port's fairest daughters was missing. It is said down this way, that Leigh was sent there as a missionary in the cause of Wallerism. Perhaps Leigh can explain.

STOP! STOP!

Don't Fail to Read This and Save Many Dollars And Many Weary Hours Every Year.

Where Do You Buy Your Goods, and How Do You Buy Them?

Do you know that we can sell you goods TWENTY TO FIFTY PER CENT. CHEAPER

THAN ANY HOUSE IN HOLT COUNTY

that sells on time. Read the following and see how it is done: Suppose for example you go to a Merchant who sells on time to buy a pair of boots. He charges you four dollars for a boot that costs him three dollars; you pay for them at the end of the year, and the merchant makes one dollar clear out of a three dollar investment, or 33 1-3 per cent. out of his money.

Now suppose on the other hand you go into a cash house and pay \$3.10 for the same boot. The cash Merchant makes 10 cents clear off the boots; he sends that money off and in a few days has another pair to sell at 10c profit, and he will sell at least twelve pairs of those boots in one year, making a clear gain of \$1.20, and making 20 cents more than the time man on his investment, and saves you 90 cents on every four dollars' worth you buy. Your boots are paid for when you get them. There is no misunderstandings, no overcharges, no being bored to death by duns. The cows and hogs do not have to be sold to pay a store debt. You will never have to mortgage the farm: when you sell your stock or grain, the money is yours, and you do not have to go and apply it on some enormous store debt. You save 90c on a pair of boots, \$2.00 to \$5.00 on a suit of clothing and everything else in proportion. All this amounts to many dollars in one year, and a small fortune in only a few years. It saves you many weary, weary hours pondering over your debts; you are an independent man, and thus a happy one. Now you can see this fully demonstrated by calling on
